Planning cell,

Road Department, Pune Municipal Corporation

June 2020

Pune Municipal Corporation has adopted Urban Street Design Guidelines to promote public transport; walking, cycling, E-Bike and place making that lead to safety and liveliness of urban streets in Pune. Considering the present condition of the roads, traffic and also expansion of the PMC boundaries, it has become necessary for PMC to prepare a detailed master plan for long term implementations of development of Road network and effective implementation of the said master plan.

Pune Municipal Corporation (PMC) is looking for bright, hardworking candidates having good understanding about Transportation Planning for this post to work.

Responsibilities and Qualification criterion for this post is as follows:

1. Transport Planner/ Transportation Engineer (1 post)

Responsibilities

The responsibilities under this position are as follows:

- Planning, designing and submission of draft reports/studies relating to Urban Transport projects such as Comprehensive Mobility Plan (CMPs), Parking Studies, Detailed Project Report (DPRs), traffic improvements etc.
- Scrutiny of all the traffic related report submitted to Road department including BRT, NMT projects, HCMTR Projects, public spaces, pedestrian plaza/zones, riverfront development, canal development etc. as per urban street design guidelines of Pune.
- Suggesting modifications in the report submitted by consultants and checking revised versions of the same.
- Preparation of Detailed project report regarding present road condition of traffic and development of new roads considering future demand of the city.
- Cost estimation of the project along with the implementation schedule of the project.
- Various alternatives (financial models) suggested for execution of the project along with viability analysis along with the probable obstacles, (viz permission from various agencies etc)

Qualifications

The preferred qualifications for this position are as follows

- The candidate should be a Post-Graduate in Transport Planning/Transportation Engineering.
- At least 10 years of experience in traffic assessment, inter-modal networking, BRT system, road network planning, design of road, and related infrastructures.
- Knowledge of Transport Demand Modelling (Transport related software i.e. VISSIM, VISUM, Cube)
- Demonstrated ability to work well in a fast-paced environment and to juggle multiple assignments with little supervision.
- Highly organized and detail-oriented; experience in managing complex processes or projects.
- Strong organizational, verbal & written communication, analytical skills
- Comfortable working with staff at all levels of experience
- Fluency in English, Hindi, & Marathi preferable
